GOVERNMENT OF INDIA
STATISTICS AND PROGRAMME IMPLEMENTATION
LOK SABHA

UNSTARRED QUESTION NO:4646
ANSWERED ON:22.04.2015
ANNUAL SURVEY OF INDUSTRIES
Birla Shri Om

Will the Minister of STATISTICS AND PROGRAMME IMPLEMENTATION be pleased to state:

(a) whether Annual Survey of Industries (ASI) is conducted every year in the country;

(b) if so, the details thereof and the practice and procedure of its calculation; and

(c) the main outcome of the surveys conducted during the last three years along with the industrial sectors which witnessed growth and also those which were lagging behind in growth?

Answer

MINISTER OF STATE (INDEPENDENT CHARGE) FOR MINISTRY OF STATISTICS AND PROGRAMME IMPLEMENTATION, MINISTER OF STATE FOR MINISTRY OF EXTERNAL AFFAIRS AND MINISTER OF STATE FOR MINISTRY OF OVERSEAS INDIAN AFFAIRS [GENERAL (Dr.) V. K. SINGH (Retd.)]

(a) Yes, Sir.

(b) The Annual Survey of Industries (ASI) is being conducted every year since 1959 to obtain comprehensive and detailed statistics related to organised manufacturing industries. The main objective of the survey is to estimate the contribution of organised manufacturing sector as a whole to the national income and systematic study of its structure by type of industry.

Industrial units registered under Sections 2m (i) and 2m (ii) of the Factories Act, 1948 and Bidi and Cigar establishments registered under the Bidi and Cigar Workers (Conditions of Employment) Act, 1966 are covered under ASI. The survey is carried out in the entire country. At present, National Industrial Classification 2008 is being used for classification of the industrial establishments by industrial activities.

All the industrial units under the coverage of ASI are grouped into two sectors: Census and Sample. While the Census sector comprises mainly the units employing 100 or more workers, the sample sector consists of all the residual units. The Census sector units are covered on a complete enumeration basis. However from the sample sector, a representative sample is drawn in such a manner that each industrial group is represented in each state. The sample data so obtained is appropriately added with the estimates for the Census sector to arrive at the estimate for the entire registered manufacturing sector.

(c) The latest available results of the ASI relate to the financial year 2012-13. The key highlights of the last three ASI conducted by the Ministry are as under:

Parameter/Year	2010-11	2011-12	2012-13
Factories in operation (in number)	172,177	175,710	179,102
Total persons engagd (in number)	12,694,853	13,429,956	12,950,025
Total output(in Rs.Lakh)	46,76,21,696	57,76,02,354	60,25,94,536
Gross Value Added (GVA) (in Rs. Lakh)	82,513,335	97,735,796	100,727,950

The industry-wise figures of Gross Value Added as per ASI for the years 2010-11, 2011-12 and 2012-13 (latest) are presented in Annexure I. Details of growth rates in Gross Value Added for 2010-11, 2011-12 and 2012-13 over corresponding previous years are furnished at Annexure II.
